

ELEGANT HAPPENINGS

Canyon Estates Parties Planned

Topping the list of elegant happenings this winter season in Palm Springs will be the gala's that are planned for the season by Mr. and Mrs. Roy Fey at their new \$350,000 Canyon Estates Club House for member's only and their guests.

The Club House which opened this past season with a ribbon cutting ceremony and reception attended by 1,500 guests is privately owned and governed by the owners of homes within the exclusive environs of the twenty-five-million-dollar residential section.

Planned are celebrity fashion shows for the ladies and a "Goblins and Goons" Halloween party to welcome back members who have been

away for the summer at their "other homes" from Vancouver to Cannes.

Vi and Harvey Barker, popular directors of the club, are even now planning the menu for the Thanksgiving Grande dinner, and the New Year's Eve gala which will find members stepping out in black tie and shimmering gowns, with lots of bubbly-

pouring to ring in the New Year.

The contemporary California design of the club is by Charles E. DuBois, AIA, of Los Angeles, and Birns Interiors is credited with the lush decor which blends natural woods with gold and bronze desert shades throughout the many rooms.

Large card and game rooms open onto a billiard

room which has a great popularity. Elaborate kitchen and bar facilities are at the disposal of the members if their guests start to outnumber their own home capacity.

A complete health Spa is located in the Club House with men's and women's gyms and health giving saunas staffed with skilled masseuses and masseuses.

Seen across the wide terrace, overlooking the private lake, with its sparkling fountain, is the Executive 9-hole, 3 par golf course designed by Frank Hughes.

Two championship Tennis courts adjoin the club.

New Type Of Tuberculosis Immunization

A Chicago physician immunized 500 children and adults against tuberculosis by having them sit in a mist-filled room, it was stated in Medical World News.

The mist contained BCG (Bacillus Calmette-Guerin) vaccine suspended in water droplets, which they breathed.

All persons later showed positive skin reactions to TB, reports Dr. Sol R. Rosenthal of the University of Illinois.

The same inhalation method might be applied to flu and other diseases contracted through the respiratory tract, he adds.

GALAS PLANNED — Desert builder Roy Fey and Mrs. Fey, left, are planning with Wally Cedar, public affairs director, for the many galas scheduled this season at the Canyon Estates Club House for members and their guests.

Style Show Committee Is Named

Mrs. Robert Stone, ways and means chairman for the fall fashion show of the Ladies Society of the Sacred Heart, has announced her committee.

Members are Mrs. G. T. Conner, tickets; Mrs. Roy Wilhelm, table reservations; Mrs. Cyrus Potts, invitations and first vice president; Mrs. Baldwin Baker, decorations; Mrs. Harold Barnard, door prizes and Mrs. Theodore Jung, press relations.

The fashion show will be held on Wednesday, Nov. 11 at
